Upcoming Webinar:

- "LGBT Health Disparities & Hypertension Control Opportunities" with the American Heart Association

Upcoming Webinar

LGBT Health Disparities & Hypertension Control Opportunities

Date/Time: Thursday, April 19, 2018, 4pm-5pm EST

Faculty: Dr. Alex Keuroghlian, Director of Education and Training at The Fenway Institute, Dr. Alex Gonzalez, Medical Director at Fenway Health and Reverend Benjamin Perkins, Vice President of Multicultural Initiatives/Health Equity at the American Heart Association

This webinar will educate providers about LGBT health disparities and introduce providers to the American Heart Association's hypertension control efforts and Target Blood Pressure program. Target BP is a national collaboration between the American Heart Association and the American Medical Association to reduce the number of Americans who have heart attacks and strokes by urging medical practices, health service organizations and patients to prioritize blood pressure control.

Participate in Target: BP

The AHA and AMA partnered to launch Target: BP in 2015 to improve blood pressure control and build a healthier nation. This national initiative aims to reduce the number of Americans who have heart attacks and strokes by urging medical practices, health service organizations, and patients to prioritize blood pressure control.

Target: BP supports physicians and care teams by offering access to the latest research, tools, and resources to reach and sustain blood pressure goal rates within the patient populations they serve.

Working together, medical practices and health service organizations can significantly improve the nation's current national blood pressure control rate of 54 percent. Join Target: BP and be a part of this national movement to build a healthier America, starting today.
