

NATIONAL LGBT HEALTH  
EDUCATION CENTER

A PROGRAM OF THE FENWAY INSTITUTE

## LGBT Health Line

**We are currently accepting applications for the July 2018  
- June 2019 program**

---

### What is ECHO?

"Project ECHO (Extension for Community Healthcare Outcomes) is a collaborative model of medical education and care management that empowers clinicians everywhere to provide better care to more people, right where they live." -[About ECHO](#)

### The ECHO Experience

- The opportunity to tap into the collaborative power of health center teams and public health experts
  - 12 months of free training, technical assistance, and coaching for your health center
  - Access to nationally-recognized faculty and experts
  - Access to state-of-the-art resources, tools, and effective practices
-

## Transgender Health ECHO

Through the use of the groundbreaking [Project ECHO model](#), TransECHO creates a network of health centers and faculty expertise to increase clinician access to knowledge and support needed to provide culturally-responsible, comprehensive, primary care for transgender and gender non-binary patients.

Thus far our TransECHO clinic has serviced 50 health centers all who have come together to share cases, receive advice and learn from expert faculty. Highlights of the program have included didactic presentations on topics such as "Feminizing and Masculinizing Hormone Therapy," "Surgical Gender Affirmation," "Intersectionality," and "Provider Bias: Working with Transgender and Non-Binary Identified People." One participant said: "I am so grateful to be a part of this discussion! I wish this existed when I first started working with transgender patients 2.5 years ago!"

We are currently accepting applications for the 2018-2019 program. Please note that this is only available to FQHCs that have not previously participated in our TransECHO clinic. Click below to apply to participate!

-

## Who should participate?

- Providers who are currently providing care to transgender and gender non-binary patients.
- Health Center Staff with an ability to commit to 12 two-hour sessions in 12 months.
- Providers with an interest in the opportunity to tap into the collaborative power of health center teams and public health experts
- **Application due by April 6, 2018.**
